Meeting Status: Not yet responded

Organizer: Gordon, Lisa Perras
Required Attendees: Johnson, Patrick; Wetherington, Michele; Stopper, Nathan; Stephenson, Natalie; Calli, Rosemary

Make-up session for Class 1 of the Flow Academy.

Nathan, Natalie, if you have time, we welcome you to join us in this smaller group for Class 1 of the Flow Academy. It should be a good discussion in general about how the Agency's approach to pollution has evolved over the past four decades, with a discussion of two Supreme Court cases that played a significant role. Attaching the class overview for context (see page 2 for what's covered in this first class) as well as the Class 1 "homework" for some additional information on what will be covered.
